

Jahred Liddie, PhD

j.liddie@gwu.edu [Website](#) [Github](#) [LinkedIn](#)

I am an environmental health scientist with interests in drinking water quality, population health, policy solutions, and data science.

EDUCATION

Harvard T.H. Chan School of Public Health Ph.D. in Population Health Sciences Dissertation: <i>Trends and Disparities in Contamination by Per- and Polyfluoroalkyl Substances in U.S. Community Water Systems</i> Adviser: Prof. Elsie Sunderland	2021-2025
Harvard T.H. Chan School of Public Health S.M. in Environmental Health	2019-2021
Harvard College A.B. in Environmental Sciences Engineering <i>Cum laude</i> , with departmental honors	2012-2016

EXPERIENCE

George Washington University - Milken Institute School of Public Health <i>Postdoctoral Associate</i> <i>Water, Health, and Opportunity Lab (led by Prof. Xindi Hu)</i>	Aug. 2025 - Present Washington, DC
- Leading research projects on: (1) the impacts of drinking water quality regulations on health, (2) extreme events and health, (3) novel, nationwide prediction models for PFAS in groundwater, (4) the development of national sociodemographic estimates of residents served by community water systems, and (5) multi-decadal trends in PFAS drinking water contamination - Mentoring undergrad, master's, and early-stage PhD students on related research projects	
Harvard University <i>Postdoctoral Fellow</i> <i>Sunderland Biochemistry of Global Contaminants Lab</i>	Feb. 2025 - Jul. 2025 Cambridge, MA
- Led research projects on water system infrastructure disparities, PFAS drinking water occurrence, and temporal trends - Mentoring master's and early-stage PhD students on related research projects	
Environmental Health and Engineering, Inc. <i>Part-time/Short-term Consultant</i>	Oct. 2023 - Nov. 2023 Newton, MA
- Assistant manager (team of 8) for data entry project for PFAS concentrations in well water from public water systems nationwide - Evaluated data collected for quality assurance/quality control and completeness and provided advice for data collection forms to clients	
Silent Spring Institute <i>Summer Research Fellow</i>	Apr. 2020 - Dec. 2020 Newton, MA
- Scraped, analyzed, and graphed time-series well water data on PFAS to assess historical exposures - Gather, analyzed, and presented associations between sociodemographic factors and unregulated drinking water contaminants	
Sphera (formerly thinkstep) <i>Sustainability Consultant</i>	2016-2019 Boston, MA
- Modeled environmental life cycles of building and construction products for comparison and industry associations to notify consumers and to establish industry-average benchmarks - Assisted in implementing sustainability data collection software systems for clients - Managed a \$40k project to create multiple Environmental Production Declarations and a life cycle assessment report	

The Clorox Company	2016
<i>Product Safety Intern</i>	Pleasanton, CA
Harvard University	2015-2016
<i>Research Assistant</i>	Cambridge, MA
<i>Sunderland Biogeochemistry of Global Contaminants Lab</i>	
World Bank	2015
<i>Water Security Intern</i>	Washington, DC
University of Alabama	2014
<i>Research Assistant</i>	Tuscaloosa, AL
<i>Bara Research Group</i>

INVITED PRESENTATIONS

Guest lecture, George Washington University Milken Institute School course on data visualization, 2026. *Washington, DC, USA*.

American Museum of Natural History - SciCafe, “Forever and ever,” 2026. *New York City, NY, USA*.

Private Well Research Coordination Network, 2026. *Virtual*.

Guest lecture, University of Rhode Island undergraduate course on environmental health, 2026. *Virtual*.

Taste of Science, “Unbreakable bonds, unequal burdens: environmental justice in the age of forever chemicals,” 2026. *Virtual*.

Guest lecture, Georgetown University undergraduate course on environmental justice, 2026. *Washington, DC, USA*.

Mary Ann Swetland Center for Environmental Health (Case Western Reserve University), “Sociodemographic Composition and Barriers to Advancements in Water Treatment in U.S. Community Water Systems,” online seminar, 2025. *Virtual*.

National Sea Grant Program - PFAS Community of Practice Webinar Series, “Disparities in Contamination by PFAS in U.S. Community Water Systems: Current Understanding, Data Gaps, and Redress,” online webinar, 2025. *Virtual*.

Environmental Law Institute, “Community Lawyering for Environmental Justice Part 10: Environmental Justice Implications of PFAS,” online webinar, 2024. *Virtual*. Available [here](#) and a transcript of the panel was published in the *Environmental Law Reporter* [here](#).

Presenter and panelist, National PFAS Conference, 2024. *Ann Arbor, MI, USA*.

Emerging Contaminants in the Environment Conference, “Who is most exposed to PFAS in drinking water? Current insights and data gaps,” invited keynote speaker, 2024. *Virtual*.

American Association for the Advancement of Science (Center for Scientific Evidence in Public Issues), “PFAS, Sociodemographic Factors and Implications for Communities and Environmental Justice,” panelist, 2023. *Virtual*.

NAACP Legal Defense Fund (Thurgood Marshall Institute), panelist, 2023. *New York City, NY, USA*.

National PFAS Contamination Coalition, online meeting, 2023. *Virtual*.

US EPA Federal-State Toxicology Risk Analysis Committee, webinar presentation, 2023. *Virtual*. Summary available [here](#).

University of North Carolina at Chapel Hill, Center for Public Engagement with Science, IDEA Learners Meeting, “Designing classroom lessons on the human health effects of PFAS exposure,” 2023. *Chapel Hill, NC, USA (virtual)*.

California Department of Public Health, Data Group Meeting, 2023. *Sacramento, CA, USA (virtual)*.

CONFERENCE PRESENTATIONS

International Society for Environmental Epidemiology, oral and poster presentations, 2026 (upcoming). *Munich, Germany*.

American Waterworks Conference, oral presentation, 2026 (upcoming). *Washington, D.C., USA*.

International Society for Environmental Epidemiology - North American Chapter, lightning talk, 2026. *Baltimore, MD, USA*.

Poster presentations, GWSPH Research Day, 2026. *Washington, DC, USA*.

Oral presentation and session convener/chair, American Geophysical Union, 2025. *New Orleans, LA, USA*.

Poster presentation, Harvard Climate Connect Symposium, 2025. *Cambridge, MA, USA*.

Oral presentation, International Society of Exposure Science, 2024. *Montréal, Canada*.

Oral presentation (accepted), International Society of Environmental Epidemiology, 2024. *Santiago, Chile*.

Poster, National PFAS Conference, 2024. *Ann Arbor, MI, USA*.

Oral presentation, International Society of Exposure Science, 2023. *Chicago, IL, USA*.

Oral presentation (accepted), International Society of Environmental Epidemiology - North American Chapter, 2023. *Corvallis, OR, USA*.

Poster discussion, International Society of Environmental Epidemiology, 2022. *Athens, Greece*.

Symposium presentation (presented by Dr. Laurel Schaidler), International Society of Environmental Epidemiology, 2022. *Athens, Greece*.

Oral presentation (accepted), International Society of Exposure Science, 2022. *Lisbon, Portugal*.

Poster, 3rd National PFAS Meeting: Environmental Justice and Scientific Discovery, North Carolina State University Center for Environmental and Health Effects of PFAS and affiliates, 2022. *Wilmington, NC, USA*.

Poster, Science of PFAS Conference: Public Health and the Environment. Northeast Waste Management Officials Association and affiliates, 2022. *Marlborough, MA, USA*.

Moderator, Session: “Human exposure to PFAS, a threat for our health.” FLUOROS Global Conference, University of Rhode Island STEEP Superfund Research Program and affiliates, 2021. *Providence, RI, USA (virtual)*.

TEACHING AND MENTORING

Teaching

Teaching Assistant, *Harvard College, Cambridge, MA*. ESE 161: Applied Environmental Toxicology (2024-2025).

Teaching Assistant, *Harvard T.H. Chan School of Public Health, Boston, MA*. EH 510: Fundamentals in Human Environmental Exposure Assessment (2021-2023).

Teaching Assistant, *Harvard T.H. Chan School of Public Health, Boston, MA*. RDS 500: Risk Assessment (2023).

Teaching Assistant, *Harvard Graduate School of Education, Cambridge, MA*. EDU S022: Introduction to Statistical Computing and Data Science in Education (2023).

Teaching Assistant, *Harvard College, Cambridge, MA*. ES 6: Introduction to Environmental Science and Engineering (2016).

Mentoring

2024-2026: Anton Roche, Harvard T.H. Chan School of Public Health: research assistant and Master of Science student. Admitted PhD student at MIT in environmental engineering.

2023-2024: Layla Seaver, Harvard College: senior thesis and capstone project (“Addressing Forever Chemicals: An Algorithm for PFAS Prediction Modeling and Filter Selection for Private Well-Users”). Recipient of the Dean’s Award for Outstanding Engineering Project.

2023: Katherine Yang, Williams College: research assistant in the Summer Program at Harvard in Earth and Environmental Sciences.

GRANTS, FELLOWSHIPS, AND HONORS

GWSPH Research Prize for lab-based research, 2026.

Private Well Research Coordination Network collaboration grant (\$2k), 2026.

National Institute of Environmental Health Sciences T32 trainee (T32ES007069; 2021-2024).

Sources, Transport, Exposure, & Effects of PFAS (STEEP) Superfund Research Center trainee (P42ES027706; 2021-2025).

Travel award from the Institute for Quantitative Social Science (\$1.2k), 2024.

Travel award, *National PFAS Conference*, 2024.

Runner-up, ArcGIS StoryMaps Competition (Humanitarian and Social Justice category). *Esri* (2022).

Skaff Family Environmental Graduate Fellowship, *Harvard University* (2021).

Pforzheimer Fellow, *Harvard T.H. Chan School of Public Health* (tuition, stipend, federal work study - 2019-2021 [approx. \$124,000]).

APHA Environment Section Student Travel Scholarship (2019).

ACADEMIC AND PROFESSIONAL AFFILIATIONS

Private Well Research Coordination Network (2026)

The American Geophysical Union (2023, 2025)

The Institute for Quantitative Social Science at Harvard (2024-2025)

International Society for Environmental Epidemiology (2022-2023, 2026)

REFeree ACTIVITIES

Environmental Health (2024-2026), *Environment International* (2024-2026), *Environmental Science & Technology* (2024-2025), *Environmental Science & Technology Letters* (2023), *Environmental Science & Technology Water* (2024-2026), *Environmental Science: Processes & Impacts* (2025), *GeoHealth* (2025-2026), *Journal of Exposure Science & Environmental Epidemiology* (2024), *Science of the Total Environment* (2025), *Scientific Reports* (2025)

WORKSHOPS AND TRAININGS

2025: Causal Inference Workshop (hosted by Arnold Ventures), *Washington, D.C.*

2025: Electronic Medical Records Boot Camp: Skills for Health and Research Professionals (Columbia Mailman School of Public Health), *virtual*.

2021: Environmental Justice Boot Camp: Skills for Health and Research Professionals (Columbia Mailman School of Public Health), *virtual*.

SKILLS

Topics: Environmental exposure assessment; environmental epidemiology; applied statistics, data science, and epidemiologic methods (regression modeling, machine learning, causal inference); data wrangling, processing, and sharing; scientific writing; data visualization and science communication; project management

Programming and GIS: R, RMD, STATA, ArcGIS

Life cycle assessment and sustainability data management: GaBi, SoFi

Data visualization: *TidyTuesday* portfolio available [here](#)

Project and knowledge management: Confluence, Jira

Other skills: Microsoft Office suite, L^AT_EX and applications, Adobe Photoshop

Languages: English (native), Spanish (intermediate)
